1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japan 09281132 (Yamaha; cited by Applicant). Yamaha, as stated in Applicant's specification, pages one and two, disclose a lever supported bracket apparatus with a lever in the vicinity of the front end of a seat, a lever-supported bracket with a socket section, and a tongue shaped piece.

3. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 8-14 are allowed.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Longenecker shows a tongue and socket. Zitnik et al show a tongue and socket.
